Product description

The SparkFun Qwiic pHAT V2.0 for Raspberry Pi offers you the fastest and easiest way to get started with SparkFun's Qwiic ecosystem while continuing to use the Raspberry Pi you've come to know and love. The Qwiic pHAT connects the I2C bus (GND, 3.3V, SDA and SCL) of your Raspberry Pi to a series of Qwiic connectors on the HAT. As the Qwiic system allows you to daisy-chain boards with different addresses, you can stack as many sensors as you like to create a tower of sensors!

The Qwiic pHAT V2.0 has four Qwiic Connect ports (two on the side and two vertically), all on the same I2C bus. We've also made sure to add a simple 5V screw connector to power boards that may require more than 3.3V, as well as a general purpose button (with the option to power down the Pi with a script). In addition, the mounting holes on the board have been updated and are now positioned to accommodate the typical Qwiic board size of 1.0" x 1.0". This HAT is compatible with any Raspberry Pi that uses the standard 2x20 GPIO header, as well as the NVIDIA Jetson Nano and Google Coral.

Features:

- 4x Qwiic connection ports
- 1x 5V tolerant screw terminal
- 1x general purpose button
- HAT-compatible 40-pin female header

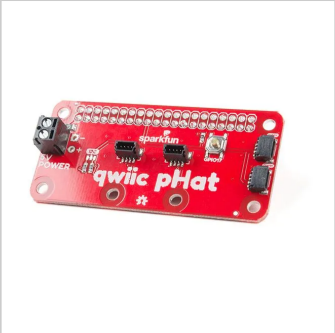

Documents:

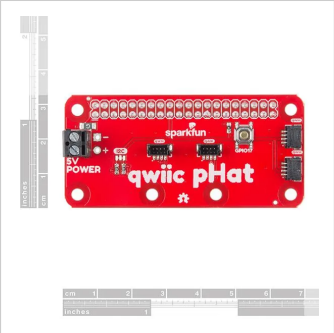

- Get Started with the SparkFun Qwiic pHAT Guide

Product properties

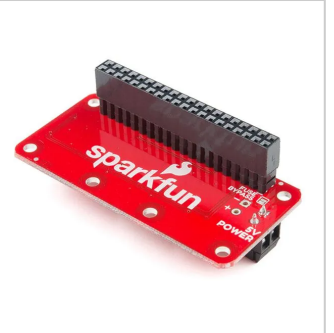

Gross Weight (kg)	0.015
Zolltarifnummer	84733020
Country of Origin	USA
Brand	SparkFun
Product ID	DEV-15945
Manufacturer ID	DEV-15945
Compatibility	Raspberry Pi 4B, Raspberry Pi 3B+, Raspberry Pi Zero, Raspberry Pi Zero W, Raspberry Pi 3B, Raspberry Pi 3A+, Raspberry Pi Zero WH, Raspberry Pi 5
EAN	845156010127
